

Digital Dictation...It's almost Telepathic!

Would you love to have your thoughts typed out just as soon as you verbalized them? With BigHand digital dictation that thought can be a real transferable document in a matter of minutes.

Imagine saving time and administrative strain by simply speaking into your BlackBerry®. While in the office or on the road this simple tool compliments the investment you have made in your device.

Medical, legal and news industries already spend a lot of time and energy using voice dictation, why not take it that one step further and reduce typing injuries for your administrative staff, improve document turnaround time and data integrity with one easy to use tool.

Our partners from PaperIQ recently offered their customers this revolutionary voice to text module for BlackBerry®.

Douglas Consulting is proud to add this feature to their product line as well.

For more information about this product please consult Douglas Consulting via email: marketing@douglasconsulting.org or by phone at 862.242.9540.

You can read more information at :

www.bighand.com/digitaldictation/blackberry.

If you would like to give it a try download a free trial version. The instructions below are as noted by our partners at PaperIQ.

To install a free single-user evaluation version of the application please visit <http://blackberry.paperiq.com/dictate> from the Browser on your BlackBerry smartphone. The application requires BlackBerry software 4.2 or higher (you may check this on your BlackBerry smartphone under Options>About). If you have an earlier software version you may be able to obtain an upgrade to v4.2.1 from your wireless carrier.

Douglas Employee meets PA State Representative - Richard T. Grucela

Welcoming an occasion to further educate a 4th grade student about the inner workings of the Pennsylvania Government, Mr. Richard T. Grucela, State Representative for the 137th District of PA accepted an appointment with Judy Ryno of Douglas Consulting and her son.

Having just completed social studies lessons on the history of Pennsylvania and a tour of the state's capitol, the 9 year old was mesmerized by Mr. Grucela's kind nature and excitement for teaching children about government. Hoping to coax a future career interest in government or business, Judy took the meeting opportunity to discuss the benefits of the Digital Pen and Paper solution for government and academic purposes along with allowing her son a chance to ask questions about what it is like to represent our district.

When asked if he would run for a seat on the PA Senate, Mr. Grucela stated that he liked the large group of people he worked with in the House of Representatives and

that in the Senate you were limited in your interactions.

First Row—Far Right, Mr. Richard T. Grucela stands with the 4th Grade classes from DeFranco Elementary School

This young man, feeling as if Mr. Grucela has greater things to offer, curiously inquired if he might then be interested in running for Presi-

dent of the United States, Mr. Grucela replied "I feel that I can do more for the people in the position I currently hold. I've accumulated seniority and developed many relationships that assist me in being able to join special bill review committees and enact more legislature."

Mr. Grucela proudly autographed the group photo in which he appeared with the 4th grade students, making this starry eyed boy ecstatic and anxious to brag to all of his friends about the meeting.

Although at this time, it's still unclear as to whether or not we have a future legislator on our hands yet Douglas Consulting was able to learn some good information about bringing their services into the PA government and academic systems. We will be working on these endeavors in the New Year and hope to accomplish great improvements in these areas.

Many thanks to Mr. Grucela and his staff for allowing us the time to speak with him.
